OTABEK HAYDAROV

Tashkent, Uzbekistan | +998 90 277 11 04 | otabek11.haydarov@gmail.com | otabekhaydarov.me | linkedin.com/in/otabek-haydarov

EDUCATION

PDP University **Tashkent, Uzbekistan**

Bachelor of Science in Information Technology (Data Analytics Track) *2025 – 2029*

- Academic Standing: First Year GPA: 4.26 / 5.0.
- Relevant Coursework: Database Management Systems (SQL), Python for Data Science, Data Visualization & BI, Probability & Applied Statistics, Data Structures and Algorithms.

WORK EXPERIENCE & PROJECTS

E-Commerce Profitability & Unit Economics Analysis **Tashkent, Uzbekistan**

Data Analyst (PostgreSQL, Python, SQL, Power BI) *2025*

- Audited and transformed a transactional database of 2,000+ customer orders in PostgreSQL to model unit economics and identify hidden margin leakages (pinpointing a 31% to 13% disparity).
- Formulated and tuned complex SQL queries using Common Table Expressions (CTEs), Window Functions, and multi-table joins to measure multi-channel marketing ROAS and calculate Customer Lifetime Value (CLV).
- Designed an executive Power BI dashboard visualizing gross margin trends, Average Order Value (AOV), and customer cohort behaviors to support commercial strategy.

U.S. Electric Vehicle Market Share & Infrastructure Analysis **Tashkent, Uzbekistan**

Data Analyst (PostgreSQL, Python, Tableau, SQL) *2024 – 2025*

- Performed end-to-end data cleaning, normalization, and statistical analysis on a dataset of 287M+ registered vehicles across 51 jurisdictions.
- Uncovered adoption velocity trends, alternative fuel penetration, and charging infrastructure bottlenecks using Python and PostgreSQL.
- Built dynamic, interactive Tableau visualizations delivering actionable geographic insights for charging station capacity planning and policy analysis.

Natural Language SQL Query Engine **Tashkent, Uzbekistan**

Data & Software Developer (Python, FastAPI, PostgreSQL, LLMs) *2025*

- Engineered an analytics tool enabling non-technical stakeholders to input business questions in natural English and obtain validated SQL query outputs in real time.
- Implemented a schema-aware validation and safety guard layer to block unintended data mutations and ensure query syntactic accuracy.

LEADERSHIP EXPERIENCE

AnalystBuilder & Open-Source Community **Tashkent / Remote**

Data Analytics Trainee & Peer Tutor *2024 – Present*

- Completed rigorous practical business analytics tracks on AnalystBuilder (founded by Alex The Analyst), mastering exploratory data analysis (EDA), data cleaning, and relational database modeling.
- Facilitated study groups among university peers at PDP University, assisting fellow students with SQL query optimization and Python data manipulation techniques.

SKILLS & INTERESTS

Skills: Power BI, Tableau, Advanced Excel (Pivot Tables, XLOOKUP, Nested Formulas, Data Modeling), Python (Pandas, NumPy, Matplotlib), SQL (PostgreSQL, MySQL), JavaScript, TypeScript, React, FastAPI, Git, GitHub, Figma.

Languages: Uzbek (Native), Tajik (Native), English (B2 – Professional Working Proficiency), Russian (A1–A2 – Elementary / Actively Learning).

Interests: AI & Large Language Models, Data Visualization Design, Chess, Open-Source Technologies, Tech Blogging.
